Hello - see request down below. I forwarded your three names. If there is someone else that should have been forwarded, please let me know. He doesn't want a cast of thousands, so I thought you three were the best options.

Please advise,

Eileen Deamer

Subject: House E&C request for update call on PFAS (+ potentially Parchment too) -- R5 folks?

Hi Eileen,

Hope your Wednesday is going well.

House Energy & Commerce committee staff reached out to us last night expressing interest in a call with EPA folks on PFAS. While the request is styled in the context of Parchment, Jerry (our main E&C contact) clarified today that what he's most looking for is an overall update on EPA's PFAS efforts. We're going to have Peter Grevatt take the lead on that, to summarize post-Summit policy actions, community-engagement events, and other topics.

However – could you let me know who the right Region 5 folks would be to join the call in case Jerry would like any Parchment-specific info? I don't think this will be the focus of the call, but just want to make sure we have the topic covered in case it comes up. I'd like to limit it to a couple folks from Region 5 if we can.

The call's likely to happen at 10 am EDT tomorrow.

If you can let me know the right folks at some point this afternoon, that would be great. Thanks!

-Matt

Aaron:

Sorry to bother you on your birthday.

As I think you're aware, former full committee chairman Upton recently had a PFAS discovery in his congressional district that exceeded EPA's health advisory level. In an effort to help Chairman Upton respond to constituent concerns and keep Rep. Upton updated on the latest with EPA's efforts to

understand and address PFAS, we were hoping to get a 15 minute phone call with the relevant EPA personnel, whether that is Peter Grevatt or someone else, to find out what EPA is doing on this subject.

Please advise on availability for such a call.

Thanks.
